

## Cost Controller - OPEX (f/m/d)

### Lübeck

Founded in 1921, OLDENDORFF CARRIERS combines its history as a German shipowner with the network of one of the world's leading drybulk operators. We currently control some 750 chartered and owned vessels of 67 mio tdw, and we carry around 330 mio tons of raw materials and semi-finished products across the seven seas each year. Our customers can expect 100% performance. All the way.

As part of the OPEX Controlling team, you play a key role in supporting the cost transparency and financial steering of our own fleet. Through close cooperation with Technical, Fleet and Accounting teams, you contribute to modern reporting, analyzing key operational cost drivers and improving data quality, process integration and insight generation across the organization.

### Job Responsibilities

## Reporting & Analysis

- Further develop our OPEX reporting to create transparency and deeper insights
- Enhance and develop regular reports, variance analyses and ad-hoc requests
- Contribute to the creation of OPEX budgets and forecasts together with the team and specialist departments
- Support OPEX benchmarking across vessels, business units and external references to identify cost outliers, understand cost drivers and support management with clear, data-driven improvement recommendations

## Data, Systems & Processes

- Actively contribute to developing a modern reporting landscape in Microsoft Power BI and support its implementation (data requirements, testing)
- Collaborate with our Data Modeling team and support them in developing feasible technical solutions through consultancy and acceptance testing
- Drive improvements in data quality within the OPEX domain and an active role in process optimization
- Cooperate with Accounting during period-end closing activities (data validation, analysis, OPEX interfaces)
- Support ERP-related initiatives driven by new business requirements impacting financial reporting processes

## What You Bring Along

- A degree in Business, Finance, Accounting or comparable qualification
- Experience with Business Intelligence tools, preferably Power BI and solid MS Office skills
- Ability to quickly learn new technologies and processes
- Very good English skills and enjoyment working in an international environment
- High affinity for numbers combined with strong communication skills
- Open and confident personality with hands-on mentality, high self-motivation, and an independent and conscientious working style
- Experience in the shipping industry is an advantage but not required
- Team player skills and actively contribute ideas and work collaboratively

## What We Offer

- Our corporate culture is special: relaxed and international, open and traditionally with flat hierarchies.
- Since the very beginning, teamwork and quick decision making have been our success factors. Encouraging our employees to realize their ideas and initiatives is as important to us.
